ChiCyberCon 2020 promises to be Chicago's cybersecurity and forensics event of the year!

The conference will feature industry experts, academics and students. Some of the presentation topics include:

- An overview of the cybersecurity profession
- Data science and cybersecurity
- Overview of the cyber landscape with a focus on critical infrastructures in the U.S.
- Data privacy, information security and the digital experience of smarter communities
- Cyber attacks impact on the supply chain in a global economy
- Telephone fraud: How scammers use phones and computers
- Protecting the integrity of U.S. elections
- Impact of the New York DFS Cybersecurity Regulation (23 NYCRR 500)
- Islamic extremists in Africa: Security spotlight on Kenya and Nigeria
- The economic and security impact of Islam
- And more!

Student presenters: Do you have talented students who would like to present? We have presentations and poster session options.
